

Symposia

Symposia

The Transforming Care Conferences Symposia focus on a particular and topical theme.

Each of the Symposia are proposed by a Symposium Convenor and include up to 4 identified paper authors who will present their paper in the panel. One or more Discussants will comment on the papers.

For submitting an abstract, view instead the [Call for Papers](#) and the [Thematic Panels](#).

Symposia 2019:

1. [The role of national policies in shaping migrant workers' experience in providing home care for older people in Europe](#)
2. [Innovation for sustainable care: International perspectives from industry and practice](#)
3. [Implementing reablement in home care – what are we talking about?](#)
4. [Privatization: The Case of Nursing Homes](#)
5. [Care arrangements in context of migration](#)
6. [Care work and change. An across \(and within\) country comparison of working conditions and job quality in the care sector](#)
7. [Combining work and care: workplace support and its contribution to sustainable care arrangements](#)
